

Mobile and Embedded Computing

Laboratory 3. Flutter Widgets and UI Elements

Task I – Login screen layout

1. Create a login screen layout like the one in the image
2. Break down the UI into smaller, reusable StatelessWidget and StatefulWidget components.

Task II – ToDo List layout

1. Create a todo screen layout that has a list of todos
2. Each todo card should support swipe gestures (swipe left => delete, swipe right => mark as completed)
